Met-Pro Corporation's Global Pump Solutions Business Unit Receives International Equipment Order Totaling Approximately \$800,000

Harleysville, PA, June 22, 2011 – Raymond J. De Hont, Chairman and Chief Executive Officer of Met-Pro Corporation (NYSE:MPR), announced today that the Company's Global Pump Solutions business unit has received an order to supply a total of six (6) large Fybroc® brand vertical sump pumps to be installed at a mining location outside of the United States. This order is expected to ship in the third quarter of the Company's current fiscal year.

Fybroc® brand non-metallic fiberglass reinforced plastic centrifugal pumps were selected for this mining water application based on their ability to safely and efficiently handle corrosive liquids in difficult service applications.

"This order reinforces the Fybroc® brand's reputation as the world leader in corrosion resistant fiberglass pumps", stated De Hont. "It demonstrates Met-Pro Global Pump Solutions' ability to work closely with engineers, contractors and end customers to provide the best solution to meet their needs including quality, delivery, service, and energy efficiency. This order, together with more than \$1.7 million of international orders for our Strobic Air subsidiary announced earlier this month, is another example of Met-Pro's broad international reach and allows us to remain optimistic that circumstances are indeed improving for the release of other large projects we are pursuing."

About Met-Pro

Met-Pro Corporation, with headquarters at 160 Cassell Road, Harleysville, Pennsylvania, is a leading niche-oriented global provider of product recovery, pollution control, fluid handling and filtration solutions. The Company's diverse and synergistic solutions and products address the world's growing need to meet more stringent emission regulations, reduce energy consumption and employ green technology. Through its global sales organization, internationally recognized brands, and operations in the United States, Canada, South America, Europe and The People's Republic of China, Met-Pro's solutions, products and systems are sold to a well-diversified cross-section of customers and markets around the world.
